

# Hello

My name is Wazhma Masarweh. I am the Director here at Resurrection Lutheran Child Development. I have been in the world of child development for about 28 years now. I have been a Director for the past 5 years. I became interested in child development after I got my B.A in psychology and had to intern at a child care center for one of my classes.

After I graduated and my first daughter was born, I knew I wanted to get into a field where I can still come home and have time to take care of my family. I landed my first job as a teachers aide at Fountainhead Montessori School in 1996. Since then I left the world of preschool briefly for some other careers including my own day care, but nonetheless always coming back to the preschool world. I love being a director as it allows me to stay involved in the lives of children, teachers as well as families and the community. One of the many positives of working here at Resurrection is that the connection we have with our staff and families is so strong that it brings joys and passions about serving them and I am very grateful for that.

I live in Pleasant Hill, with my daughters Leena, Hanna, my husband and our two cats Toby and Puujo. When I am not at work, I love to read, listen to music go on walks and hikes. We also like to travel to the many national parks . I love spending time with my girls, my dad, my sisters and my brother on the weekends. We try to have a tradition of Sunday lunch or brunch with family.

## Random Facts about Me

My Favorite color : Blue
